

Huron County Medical Reserve Corps

HCMRC is a group of local healthcare professionals and other service-minded citizens who are ready to:

- Make a difference
- Know what to do in an emergency
- Receive training
- Receive Public Health Alerts
- Support Response Activities

Whether it's a medical emergency natural disaster, terrorist incident, or a routine immunization clinic, these volunteers are trained and ready to support local public health agencies

Huron County Medical Reserve Corps

**Improve the health and
safety of your community.**

Become a MRC Volunteer!

The mission of the Huron County Medical Reserve Corps (HCMRC) is to improve the health and safety of communities by organizing and utilizing public health, medical, and other volunteers.

One of the HCMRC's goal is to enhance the County's emergency preparedness by ensuring that a trained group of healthcare professional and community volunteers are ready to respond to public health emergencies.

Who Should Volunteer?

Anyone who is interested in the health and well being of our community may volunteer. We need licensed or certified healthcare professionals, practicing or retired. We also need veterinarians, interpreters, chaplains, social workers, and support staff.

Volunteers can decide when they are able to participate and how much time to commit to each MRC event.

How To Apply

1. Register online to become a member at www.ohioresponds.gov
2. Select 'Medical Reserve Corps', 'Units', 'Huron County Medical Reserve Corps'
3. Complete the online application.

Contact Huron County Public Health for assistance at 419-668-1652 ext.269

Training Requirements

HCMRC volunteers must complete core training within one year of joining. These free FEMA courses are:

- Incident Command System 100
- National Incident Management System 700
- Independent Study An In-depth Guide to Citizen Preparedness 22
- MRC 101 presented by the MRC Coordinator

Additional trainings are offered as they become available. Time training counts as volunteer hours.

Benefits of Volunteering

Volunteers will:

- Learn new skills
- Connect with your community
- Gain a sense of achievement
- Boost career options
- Networking opportunities

Community Benefits:

Major health emergencies can overwhelm resources during the first 12 to 72 hours. Citizens who are trained and prepared to take care of themselves, their family, and others will ensure that our community is safer, stronger, and better prepared.
